

FOR SALE

A Grey Achilles LSI-104 Inflatable Dinghy
with
An 8 HP Yamaha 2-Stroke Outboard Motor
and
Various Accessories

Offered for sale is a 2007 Achilles LSI-104 Inflatable Dinghy with the popular Air Floor and a 2007 8 HP 2-stroke Yamaha outboard motor. These were purchased new in the spring of 2008 and used for 7 summer seasons. They have been stored for the past 3 years. We are selling them to simplify our boating lives.

This inflatable is 10'-4" long; it easily holds 4 adults, lunches and wine. The 8 HP outboard moves the inflatable along at a nice clip. Its CT registration is current.

Included are a foot pump, oars, the center seat, a 3 gallon gas tank, an unopened new container of VC-17 bottom paint (*good for two coats*), a towing bridle, a 10 pound mushroom anchor, a repair kit, a battery-powered Attwood bilge pump, its 2018 CT DMV sticker and a nice new small blue fender.

When new, the inflatable cost us \$1,795 and the motor cost \$1,730. Today a comparably sized Achilles (*without outboard motor*) sells at Defender for approximately \$2200+. A new Yamaha 2-stroke outboard is hard to find in that outboard manufacturers have gone to the somewhat heavier 4-stroke version.

Located in south central Connecticut, we are offering this package for \$1,500.
